**ALL PROCEEDS TO BENEFIT ANDY'S MEDICAL COSTS**

### **WHY ARE WE HOLDING THIS EVENT?**

On July 5, 2010 the doctors found a brain tumor in the back of Andy's head in the Cerebellum region of his brain. On July 6, it was surgically removed and was diagnosed as Medullablastoma. Andy began a rigorous schedule of radiation and chemo. At the end of the sixth cycle, an MRI showed that the tumors had returned and had aggressively spread throughout Andy's spine and brain. One year after his diagnosis, his family has been told there is nothing more medically that can be done for Andy. Help us support the family at the 3on3 for Niebs.
